

Power Go

POWER GO + RENEWABLE ENERGY EQUALS...

Sunshine and Wind 24x7

More Energy Savings

Safe and Resilient Power

Monetised Renewable Assets

Ask About Receiving the Power Go System **ENTIRELY FREE OF COST**

RESILIENT, ROUND THE CLOCK RENEWABLES

WHY POWER GO?

Power Go keeps the sun shining and wind blowing 24x7 with battery storage.

By further fortifying renewable installations with microgrid control, automated synchronisation, and optimised utility, Power Go makes clean power resilient and secure.

LYNC SECURE® =

Uninterruptible Power +
Energy Efficiency

LYNC DR® =

LYNC Secure + Demand
Response Benefits

WHICH SOLUTION IS RIGHT FOR YOU?

LYNC Secure is the groundbreaking Go Electric solution from Power Go that is the first to combine **robust and resilient uninterruptible power** with **automated energy efficiency and savings**.

Where demand response is available, LYNC DR provides all LYNC Secure functionality plus the ability to earn revenue with **no cost for equipment and installation**.

Maximise Availability

Energy storage enables renewable energy use 24x7

Lower Electricity Bills

Automatically deploy renewables to cut energy costs when demand is high

Microgrid Control

Use renewables to create a self-sustaining, resilient microgrid

Safe and Consistent Power

Keeps renewables safely operating during a grid outage

Monetise Renewable Energy Assets

Renewable energy assets earn revenue with demand response
